[Download](#)

Amazingly, it has. Inspired by the popularity of the luge (also called skeleton), an icy version, Skeleton Luge, was made for the 1966 Winter Olympic Games in Innsbruck, Austria. The first Skeleton Luge was operated on the third story of the Swiss Reuss Cable Car in Davos, Switzerland. While this design was meant to be

---

used with a hill, it worked even in the middle of the Alps. Some of the earliest Skeleton Luge designs resemble those of the luge with some substantial differences. The first "skeleton" luge cost approximately \$2,000 in 1966. The overall design of the vehicle was far more sturdy than the luge. These first Skeleton Luge vehicles lacked any steering or

---

brakes and had rectangular sleds instead of round sleds. Two years later, in 1968, Lou Faidley designed what would become the most popular version of the Skeleton Luge. Faidley's design, which was manufactured by Sports Manufacturing, included a front curved bumper, a steering wheel, and a stabilizing bar to keep the driver in a straight line. The steering wheel on Faidley's

---

Skeleton Luge required the driver to push with the side of the feet rather than the hands, as in the luge. The first Skeleton Luge was attached to a cable car, making it possible for it to travel up and down steep hills. Improvements were made to the design of the Skeleton Luge during the 1970s. One important addition was the first Skeleton Luge with an apron.

---

This was to avoid the rider getting bruised as a result of his or her feet going into the ground from tight turns.

Another common improvement on the Skeleton Luge was the addition of a brake. The maximum speed of the Skeleton Luge, when it was not being used for the sport of Skeleton Luge, was approximately 12 miles per hour. This speed varied depending on the condition

---

of the track and the level of snow on the track. The first Skeleton Luge track was created at a ski resort in Switzerland in 1972. In 1972, Skeleton Luge was introduced at the Winter Olympics in Sapporo, Japan. Skeleton Luge has become a winter sport in many parts of the world, including the United States, Germany, Austria, Switzerland, and Austria. Skeleton Luge is

---

also unique because it is not  
an Olympic sport. Skeleton  
Luge can be used as an
