No One Lives Forever 2.0The Doc: What is this? GameSpot By britpaul23 By BrettM Awesomel recommend playing at least the first and the second missions of this game, if not both, even though both were great! But this game is simply amazing. Its a very intense game, especially if you got mad at the beginning and just straight up ruin it for yourself.But if you want to have a good time, and not frustrate yourself at all, play it. And then again, after the credits scene, have a go at it again. And then after that, play it again.I give this game 5 stars out of 5. By TSJoey If you like Ninja Gaiden or Dead Space, then you'll love DOA3!Tons of new moves for tons of weapons, character models are amazing, voice acting is great, level design is amazing, difficulty curve is really well balanced. By rahrae A new era of Playstation, or would be if sony didnt screw up this time around This game was perfectly paced, I found myself only being frustrated for a few seconds but that was the only downside to it. Aside from some linearity and a few bosses and instances that were too easy (which is not what you get to feel of a new era) but it has the most action I've ever seen in a ps4 game, and it feels great! By Meishajr The Best Game!Replay value is at its highest, especially for the PS3 community. Also, the first few hours of gameplay are the hardest, but it doesn't get much easier. Graphics are top-notch, and that's the only complaint I have. By kawana I've had this game for a while and have played it multiple times. It's my favorite game ever. I like the old-school atmosphere, lots of humor, the music is awesome, the action is very good, and the character development is deep. The story itself isn't super dark, but I find it inspiring. The combat is very entertaining because there's a lot of combos and you're still able to execute a range of
