### Mapeditorfarcry4crackonly

how does mapeditorfarcry4crackonly work? different ways to crack files how to crack a file the first thing to do to crack a file is to set the directory that you want to crack and the file you want to crack. examples versions this tool is a demo version and the main objective is to show other users what an editor can be if you can just create a program and put a few lines of codes in the editor. currently there are two versions: this one, and the demo version. demo version this version is for other users that want to know what an editor can be if you just create a program and put a few lines of codes in the editor. the demo version has only a few features that the normal version has: there are three ways to add cracks to the mapeditor(all of them in the same variable that represents the map): cracks enablecracks are added to the map. but they can also be placed on entities (player, gibs, npcs, cars,..), or on other objects (in a different map) if the entity is walkable or has an activity. example: mapeditorfarcry4crackonly = { cracks = { cracks = { sound = crack }, }, }, cracks disablecracks are removed from the map. only the base map is modified. example: mapeditorfarcry4crackonly = { cracks = { }, }, cracks enable/disablethe map is modified in such a way that you can place crack whenever you want: there is no crack in the map anymore, but a way to trigger it is added. e.g., you want to use a pattern: mapeditorfarcry4crackonly = { cracks = { pat = { { cracks = { sound = crack }, }, }, }, }, 5ec8ef588b
